

DISH Approved as Compatible Accessories - Posted 7-1-2011

Scope of Document

DISH Approved as Compatible Accessories are required from the DISH antenna to the receiver and all components used in mounting and grounding

Items developed and or distributed through Echostar Technologies L.L.C. are to be considered as acceptable by default. Examples: DPP44, DP34, DP21, SW21, SW44, SW64, DPP Separator

Submittal Process for an entity attempting to have an item APPROVED as COMPATIBLE for use in DISH Network installations:

- a. Provide submittal package to include all the items detailed in sections 2-5 of the Vendors Submittal Package Checklist.
 - i. Submittal Form
 - ii. Samples
 - iii. Specification sheets
 - iv. Test reports
- b. Notification from Echostar will be provided confirming receipt of package. Qualification lead time estimate will also be provided at that time based on size of queue and type of part.
- c. Echostar reserves the right to implement a fee plan for qualification services if submittals are not thorough, complete, or viable components.

Ship submittal package to:

**Dish Network Research and Development
Attention: David Lettkeman
9601 South Meridian Blvd.
Englewood, CO 80112
Mail Stop 1A-2E-2121**

APPROVED This part has been reviewed by DNS, ET, and/or a third party lab and has been deemed "approved as compatible" for use in all DISH Network Installations.

REJECTED: This part has been reviewed by DNS, ET, and/or a third party lab and has been deemed "unacceptable" for use in any DISH Network Installations.

REMOVED: This part has been removed by request of the manufacturer " Item either no longer meets the requirements or production has been discontinued by the manufacturer.

Item Status Changes are indicated in BOLD
